## Text contrast

To comply with WCAG AA, the colour of text must sufficiently contrast with its background color, so that people with moderate visual impairments can read it.

Issues 

 Why Use Boring Rectangular phones? 

**Foreground**

#FF6B35		 Copy
---------	---	--

**Background**

#FFF8DC		 Copy
---------	---	--

 Large text (24pt)

 Contrast ratio: 2.66:1 / 3:1 FAIL

To fix:

- Increase color contrast slightly ([explore options](#))

 ORDER NOW! 🎉 ^

**Foreground**

#FFFFFF	 Copy
---------	--

**Background**

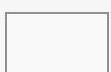

#FF6B35	 Copy
---------	--

**T** Large text (15pt)

**●** Contrast ratio: 2.84:1 / 3:1 FAIL

To fix:

- Increase color contrast slightly ([explore options](#))

Unsubscribe

#### Foreground

#999999

Copy

#### Background

#F9F9F9

Copy

Small text (12pt)

Contrast ratio: 2.71:1 / 4.5:1 FAIL

To fix, either:

- Increase color contrast a lot ([explore options](#))
- Make this text bold *and* increase color contrast slightly

## [Semantic links](#)

Lists of related items should be written [semantically](#) as a list. [Show more](#)

```
<table border="0" cellpadding="0" cellspacing="0" width="100%" style="background-color: #f4f4f4;">...
```

```
<table border="0" cellpadding="0" cellspacing="0" width="100%" style="background-color: #f4f4f4;">...
```

**THE BANANA PHONE** Why Use Boring Rectangular phones? Say goodbye to boring, ...

This one column table is redundant, and should be either removed or turned into a list. Screen-reader users will find a table needlessly harder to use.
