

Email Clients Tests

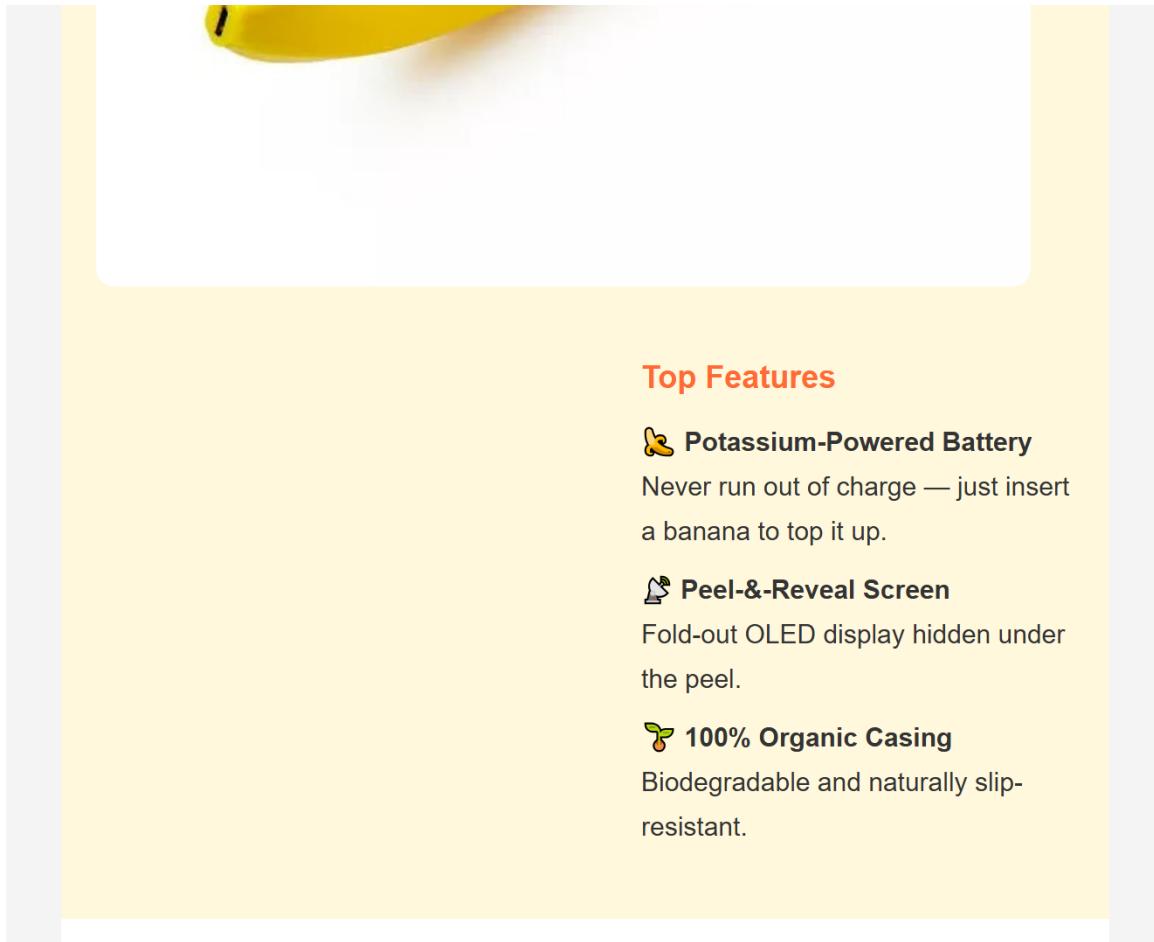

I tested this email campaign with Yahoo and Gmail web clients. The keyframe animations did not work for either client.

The interactivity of my buttons didn't work with the Yahoo client, but the color did change for Gmail without any animation.

With the Yahoo client, my 2-column layout didn't work properly.

Top Features

🍌 Potassium-Powered Battery

Never run out of charge — just insert a banana to top it up.

📱 Peel-&-Reveal Screen

Fold-out OLED display hidden under the peel.

🌿 100% Organic Casing

Biodegradable and naturally slip-resistant.

However, in Gmail the 2-column layout can be seen but the picture didn't load.
